

**i** The proposal is for the sell and distribution of portable water filtration products as a fund-raising project. Clean filtered water is at the heart of contaminated water crisis wherever it exists. Non-Profits are ideal organizations to place boots on the ground in crisis situations. Care Beyond Company is highly interested and committed to helping the City of Jackson, Mississippi and other cities combat this and future health and wellness challenge of this nature.

Non-Profits are ideal organizations to place boots on the ground in crisis situations and for carrying out fund-raising activities. Care Beyond Company is highly interested and committed to helping the City of Jackson, Mississippi and other cities combat this and future health and wellness challenge of this nature through a fund-raising opportunity.

The Care Beyond Company is pleased to submit this a letter of commitment for goods and services to support Region IV BIG in achieving its goals for improving health and wellness by providing portable water filtration products, training, and fund-raising support for non-profit participants. The company has partnered with dozens of small businesses throughout the United States and seven other countries to date. These businesses are committed to improving health and wellness through convenience, accuracy of orders, and timely delivery of products.

The Flagship Region of Blacks in Government, Region IV, Health, and Wellness Coordinators goals:

- Goal #1: Train all non-profit organization's representatives on Care Beyond system within 2 weeks of proposal acceptance.
- Goal #2: Integrate health and wellness training with functional training on Care Beyond Fund-Raising Opportunities.
- Goal #3: Monitor distribution volume, return rates, and key satisfaction metrics for 6 weeks following training.

Care Beyond

With 30 years in the health care industry, Care Beyond Company is solution driven to provide natural pathways to better health and increased well-being.

Care Blue is your Solution to the purest, most reliable, uncontaminated Drinking Water available. **PROVEN RESULTS:** Over 300 tests conducted in 41 countries.

One of the most field and laboratory tested products of its kind in the world.

Reduces and removes contaminants by 99.99% including Radioactivity, and (depending on product chosen) can naturally increase alkalinity up to 9.5 ph.

Actual pH reading after filtration will vary, depending on which unit is selected. The Care Blue Technology is tried, tested, and proven for over 25 years and assures premium quality and reliability.

- Free shipping on all orders over \$200
- ONLINE SUPPORT Dedicated support for you
- MONEY BACK GUARANTEE up to 30 days

The rationale for developing this proposal is to help people in need, provide effective health and wellness training at minimum cost to the organization; and simultaneously raise funds for Region IV operational needs. Many people affected by water crisis do not have sufficient funds to make the upfront investment in these life-saving products.

How the Fundraising Opportunity Will Operate:

[CareBeyond - The Health Practitioners choice for CBD Infused Products](#)

## **Help families Cope with the disaster in Mississippi**

These water products are sustainable, take any water and convert it to a high-quality drinking water. We are accepting donations in conjunction with our NPO partners and sending relief to the residents.

**EVERY PURCHASE GOES DIRECTLY TO FAMILIES  
4 PRODUCTS TO HELP**

### **1. Regular Filtration Pitcher w Filters**

**Great filtered and unadulterated water for a family for 2-3 months**

### **2. Enhanced pH Filtration Pitcher**

**Great Alkalized Clean healthy water for a family for 2-3 months**

### **3. 2 x Enhanced Water Filtration Straws**

**Pure Alkalized water for 2 for a month**

### **4. Enhanced pH Filtration Personal Bottle**

**Pure Alkalized water for 1 for 3 months**

## Water Filtration Products (Jackson Mississippi Donation)

Straw

Nonprofit Cost

\$50

Water Bottle

\$50

\$70

\$60

**Nonprofit Cost**

## Replacement Filters

Regular Picture

Nonprofit Cost

\$60.28

Enhanced pH Bottle

\$38.68

Enhanced pH Pitcher

\$80.98

Nonprofit Cost.

What the nonprofit can do is buy the products in bulk from Care Beyond and give them away as return gifts to the donating public.

**For Example:**

The nonprofit may have a Goal of raising \$10,000 to buy and send water products to Mississippi

They could buy the products from Care Beyond at the Non-profit rates for \$1000

They could raise the money by saying for \$500 in Donation you would receive a pitcher worth \$125, and all the balance would go to buying more pitchers, bottles and straws for Jackson or other cities.

Therefore. for \$1000 of products. The nonprofit can fundraise close to \$10,000

I am recommending that Region IV in coordination with Mississippi BIG chapters initiate a fundraising drive for cities that encounter contaminated water crisis or disasters that are under boiled water alerts.

For more information see attached brochure.

THE NEXT GEN IN WATER

## ENHANCED PH FILTRATION PITCHER

Drinking bottled water at home is expensive and inconvenient. PET plastics can leach harmful chemicals into the water and are not good for the environment. And contrary to popular belief, bottled water it's often not the purest or even best tasting. In fact, some bottled water has been found to be contaminated with bacteria and trace chemicals, and additives.

The Enhanced pH Filtration Pitcher converts your regular tap or other potable water into healthy, safe, clean, great tasting water at a small fraction of what you would spend on bottled.

Exclusive Dual Ionic-Adsorption Micro-Filtration System retains beneficial trace minerals while removing up to 99.99% of dangerous bacteria, chemicals, herbicides, metals, pesticides and radiological contaminants. All while increasing water alkalinity up to 9.5 pH.

Filters up to 200 gallons. Container is made of non-BPA Leaching Plastics. USA made filters are easily replaceable.

## REGULAR FILTRATION PITCHER W FILTERS

The Regular Filtration Pitcher gives you most of the benefits of the Enhanced pH Filtration Pitcher. It will convert your regular tap or other potable water into healthy, safe, clean, great tasting water at a fraction of what you would spend on bottled water, but without increasing the water alkalinity.

Exclusive Dual Ionic-Adsorption Micro-Filtration System retains beneficial trace minerals while removing up to 99.99% of dangerous bacteria, chemicals, herbicides, metals, pesticides and radiological contaminants.

Filters up to 200 gallons. Container is made of non-BPA Leaching Plastics. USA made filters are easily replaceable.

## ENHANCED PH ADVANCED PERSONAL WATER BOTTLE

75% of the water most people consume is away from home. The 28 oz flip top Enhanced pH Personal Water Filtration Bottle delivers healthy, safe, clean, great tasting water on the go. An excellent choice for emergency preparedness, natural disasters or in extreme conditions.

Exclusive Ionic-Adsorption Micro-Filtration System retains beneficial trace minerals while removing up to 99.99% of dangerous bacteria, chemicals, herbicides, metals, pesticides and radiological contaminants. All while increasing water alkalinity up to 9.5 pH.

Filters up to 150 gallons. Container is made of non-BPA Leaching Plastics. USA made filters are easily replaceable.

## ENHANCED PH WATER FILTRATION STRAW

Ever asked for a glass of water at a restaurant or other place only to get something that tasted awful or was of questionable quality? Carrying the Enhanced pH Water Filtration Straw in your purse or pocket can solve this problem permanently. Just use it as a straw to get healthy, safe, clean and great tasting water from practically any potable source.

Its advanced filtration system retains beneficial trace minerals while removing up to 99.99% of dangerous bacteria, chemicals, herbicides, metals, pesticides and radiological contaminants. All while increasing water alkalinity up to 9.5 pH.

Filters up to 25 gallons. Container is made of non-BPA Leaching Plastics.
